#### Billing Demand in KW:

The measured kilowatt demand shall be determined by the maximum demand achieved during the billing period.

The average power factor shall be determined for each month by comparing the kilowatt-hours of power consumed during the month with the reactive power consumed during the month. The reactive power shall be measured by a VARH meter

To the extent that the customer's hourly power factor is below 90% lagging or 90% leading, a payment of \$0.40 shall be made to the city for each KVAR which caused the power factor to be below % lagging or 90% leading.

**TERMS OF PAYMENT:**

The amount billed is due and payable upon receipt of the bill. Any bills not paid prior to the following month's billing date will be considered delinquent. The City of Niles reserves the right to discontinue service to any customer having delinquent bills after proper notice has been given.

**CONTRACT:** A written application is required.

**RULES AND REGULATIONS:**

Motors and equipment served under this rate schedule must have electrical characteristics so as not to interfere with service supplied to other customers of the City of Niles.

The City of Niles Light Department's Rules and Regulations shall apply to the installation and use of electric service.
