

CITY OF NILES FIRE DEPARTMENT

2023 ANNUAL REPORT

MISSION STATEMENT OF THE NILES FIRE DEPARTMENT

- THE OVERALL MISSION OF THIS DEPARTMENT IS TO EDUCATE THE PUBLIC IN THE PREVENTION OF FIRES COUPLED WITH MINIMIZING THE LOSS OF LIFE AND PROPERTY CAUSED BY FIRES AND EMERGENCIES OF ANY NATURE BY WAY OF TRAINING, KNOWLEDGE, SKILL, AND AGGRESSIVE INTERVENTION KNOWN ONLY TO OUR PROFESSION.

CHIEF'S MESSAGE

- The City of Niles Fire Department is a full-time department with 30 firefighters and a Chief that operate from two stations providing fire suppression, vehicle extrication, limited technical rescue, fire investigation, fire prevention and inspection, basic life support /first responder emergency medical services, certified car seat installation, and hazardous material containment. Firefighters work 24-hour shifts and then are off for 48 hours covering the city 365 days a year.
- The Niles Fire Department started the first half of 2023 with 29 members which is two short of the 31 authorized strength. As with any Fire or Police department across Ohio, recruitment has been a challenge. After a successful Civil Service test and interviews we established a hiring list. Shortly after, Firefighter Tim Crish announced his retirement creating a third open position. Nico Clementi and Brandon Davis were hired at the end of July and then we hired Joseph Page the second week of August to bring our department up to full strength. The department expects two retirements in 2024 and will be working to replace those positions.
- The overall call volume of 2,787 for the year 2023 was an increase of two more calls than the previous year. Over the last 7 years, our highest total was 3,284 calls in 2021 and our lowest was 2,411 in 2017. The department prides itself on quick response times. From the time of dispatch to arrival on scene, the NFD averages about 4 minutes.

Chief John Stevens

PERSONNEL

- The personnel of the Niles Fire Department have many different types of specialty certifications such as Paramedics, Emergency Medical Technicians, and Emergency Medical Responders to cover medical incidents. For the prevention side, we have 4 Certified Fire and Life Safety Inspectors and 4 Certified Fire Investigators. We also have two Certified Car Seat Installers to help new parents secure their children into their vehicles properly. Some firefighters have furthered their education in the fire service to include certifications like Fire Instructor, Fire Officer courses, Rope rescue, Hazardous material courses and many other specialty trainings to better the NFD.

NILES FIRE DEPARTMENT STATIONS

Station 7

15 E. State St.

**Concrete Replacement
\$158,761
Wall repair (Insurance claim)
\$9,400
Generator
\$220,000**

The Niles Fire Department had many improvements to station 7 & 8 this past year. At the beginning of the year, the weather cooperated, and we were able to get the concrete replacement project completed at both stations. Next, the apparatus bay walls at station 8 were repaired after sustaining damage from the windstorms in the spring. After the walls were secured, the exterior of the station was painted, which was a much-needed improvement. Finally, the installation of the generator at station 8 began after a long wait. These projects were the result of Niles City Administration and Council approving the funding to make these improvements.

Station 8

1235 Niles Cortland Rd.

**Concrete Replacement
\$94,594**

LOOKING TO 2024

We are looking forward to 2024 to continue improving the Niles Fire Department with things like:

- Adding a new LifePak 15 Heart Monitor for medical responses
- Upgrade boat motor
- Update workout equipment in the Stations
- Continue updating technology to improve reporting and equipment management
- Station 8 Landscaping and interior drainage work
- Purchasing 3 sets of replacement firefighting gear plus 2 sets of gear for new hires
- New hydrant connections for each fire engine

We will seek grant funding from resources like the Bureau of Workers Compensation for firefighting gloves and hoods. We are applying for the Assistance to Firefighters Grant for a new aerial truck to replace the existing 1998 aerial truck. Another funding source is the State of Ohio EMS grant which the department receives annual funds for purchasing EMS equipment.

The department will continue to solicit funds from businesses through the National Fire Safety Council for the purpose of providing educational fire safety materials for the citizens of our community with an emphasis on young children. We provide educational fire safety talks and material to around 500 children a year.

Our Fire Inspection Bureau has a hand in inspecting most of the new businesses that come to the City of Niles. They also provide the required annual fire and life safety inspections for the schools and other businesses that must meet requirements from the State of Ohio.
