Niles Water Service Line Survey

The City of Niles Water Department has partnered with 120 Water and the USEPA for the “Get the Lead Out” initiative. Niles water customers will receive a door hanger with information pertaining to the program and a brief survey we would like everyone to complete to aid in our efforts towards compliance. Please scan the QR code on the door hanger to be directed to the survey, use this link <https://120water.formstack.com/forms/cityofniles?id=5621542> or call 1-800-674-7961 to complete the survey via phone. It is a requirement that every residential and commercial property’s service line is identified on the private side. The City of Niles has since submitted their initial inventory, which will be revised on a weekly basis until full compliance is reached.

For questions about the Water Service Line program, please contact:

Kevin Robertson
Water Superintendent/Public Infrastructure Coordinator/Project Manager
